FOR IMMEDIATE RELEASE

## Screen Dreams Makes Waves with Samsung bada App Release

*Leading developer of mobile wallpaper offers free application for Samsung Wave M owners*

PHILADELPHIA, PA (December 15, 2011) — [Screen Dreams](#), a leading developer and distributor of galleries, wallpapers and screensavers for live streamed HDTV's has launched its first mobile app release on Samsung's new [bada 2.0 platform](#), available in select countries around the world including India and Italy, among others. Available now for [Samsung Wave M](#) smartphones (device model #'s S7250 & S7250D), the Screen Dreams wallpaper app is free to download and includes five galleries--Beaches, Landscapes, Patterns, Fractals and Underwater, while five other galleries--Birds, Cityscapes, Flowers, Space and Sunsets are available through an in-app purchase price of \$0.99 each. Every gallery has ten themed images to choose from and allows users unique personalized wallpaper options for their Samsung phone.

“We're excited to be releasing our latest app on Samsung Apps,” says Stephen Spivak, President of Screen Dreams. “Samsung is an established and impressive manufacturer to work with and their marketplace on the bada mobile platform is a solid platform for our latest mobile app release. It's easy to use and its practical structure fits perfectly with our app design template for their new devices.”

[Samsung](#) is a leading handset manufacturer as well as a distributor of unique apps like Screen Dreams through the [Samsung Apps marketplace](#).
